View My Work

Senior Full-Stack Developer & eCommerce Specialist

Over 8 years of expertise in building scalable web architectures using React, Node.js, and Python/Django. Shopify Developer with 600+ successful deployments, focusing on custom app development and seamless API integrations. Expert in AI-augmented software engineering, cloud deployments, and optimizing enterprise-level eCommerce platforms for maximum speed and scalability. Committed to writing clean, maintainable code and mentoring high-performing dev teams.

Shopify / eCommerce

- Shopify / Shopify Plus
- Liquid (Advanced)
- Online Store 2.0 (Custom Sections & Blocks)
- Metafields & Dynamic Data Rendering
- Shopify AJAX API
- Storefront API
- Shopify Flow Automation
- Cart & Variant Logic
- Performance & Speed Optimization
- Theme Customization & Debugging

Frontend Development

- HTML5, CSS3 (Semantic & Responsive UI)
- JavaScript (ES6+)
- React.js (Components, Hooks, Routing)
- Next.js
- Vue.js (Basics)
- jQuery
- Tailwind CSS / Bootstrap
- Responsive & Mobile-First Design
- Cross-Browser Compatibility

Backend & Full-Stack

- Node.js (Express, REST APIs)
- MongoDB (CRUD & Schema Design)
- Python (Automation/Django)
- MERN Stack Applications
- PHP & WordPress
- Webhooks & API Integrations
- Cloudflare Workers
- AI-Assisted Development & Automation Tools

Design & Productivity

- Figma → Code
- Photoshop / Canva
- UX/UI Optimization
- Core Web Vitals
- Git / GitHub / Bitbucket

Professional Experience

Senior Full-Stack & Shopify Expert | Ecommerce Web Guru Indore, India | 2018 – Present

- Architected and Delivered 600+ high-performance Shopify stores, specializing in Shopify Plus, OS 2.0, and headless commerce using React/Next.js.
- Engineered complex eCommerce logic including custom subscription models (Recharge/Appstle), advanced variant bundles, and AJAX-driven cart systems.
- Developed scalable Full-Stack applications using the MERN stack and Django, integrating RESTful APIs and robust backend architectures.
- Reduced development lifecycle by 40% by implementing AI-assisted automation workflows and prompt engineering for rapid prototyping.
- Optimized Store Performance: Consistently achieved 90+ Google PageSpeed scores by leveraging Cloudflare Workers and advanced asset optimization techniques.
- Design-to-Code: Spearheaded the conversion of high-fidelity Figma/PSD designs into pixel-perfect, mobile-first responsive UIs.

Shopify Developer | Cyrus Webtech (Part-time) 2024 – 2025

- Resolved critical frontend bottlenecks and performance issues for enterprise-level Shopify and WordPress stores.
- Integrated specialized third-party APIs to automate inventory sync and dynamic UI rendering, enhancing user engagement.

Lead Visual Designer & Branding | Freelance / Projects 2018 – Present

- Established cohesive visual identities for global eCommerce brands, including logo design, marketing collateral, and high-impact web banners.
- Advanced Image Manipulation: Created pixel-perfect product compositions and cinematic visual storytelling for Shopify-based marketing campaigns.
- Strategic UI/UX Support: Bridged the gap between high-end aesthetics and functional code to improve conversion rates (CRO) across 100+ digital platforms.
